PEOPLE'S EMERGENCY BRIEFING + DISCUSSION

People's Emergency Briefing film
(12A) 50 minutes + discussion

Presented by Chris Packham, this documentary features footage from last November's National Emergency Briefing, which brought together leading UK experts in climate science, food security, health, economics, national security and nature. Non-partisan and non-political, it presents a clear, measured overview of how the climate and nature crisis is affecting everyday life in Britain, and what the evidence says about risks and responses.

Representatives from local organisations will contribute to the discussion and provide practical information.
